Hearing Aid Compatibility Status Report (FCC Form 655)

Reporting Period: January 1, 2014 - December 31, 2014

Filing Confirmation Number: 0006618686

Filing Deadline: January 15, 2015

FRN: 0019481522

Filing Date: 01/15/2015 09:25 AM

General Report Information

Type of Company

Service Provider

De Minimis Exception

Did you offer any handsets to subscribers in the United States during the reporting period? Yes

Have you been offering handsets in the United States for at least three years prior to the end of the reporting period? Yes

Date that you began offering handsets in the United States

Are you a small entity? Yes

Were you a small entity at any time during the three years prior to the end of the reporting period?

Date that you ceased to be a small entity?

Company Information

Company Name: New-Cell, Inc.
Brand Names: New-Cell, Inc.
PO Box:
Street Address: 1580 Mid Valley Drive
City: De Pere
State: WI
Zip Code: 54115

Contact Name: Damian Sanderson
Contact Phone: (920) 617-7420
Contact Fax:
Contact Email: Damian.Sanderson@cellcom.com

Filing Agent

Is this report being filed by an agent on behalf of a manufacturer or service provider? Yes

Agent Name: Bennet & Bennet, PLLC
PO Box:
Street Address: 6124 MacArthur Boulevard
City: Bethesda
State: MD

Contact Name: Kenneth C. Johnson
Contact Phone: (202) 371-1500
Contact Fax: (202) 371-1558
Contact Email: kjohnson@bennetlaw.com

Product Labeling

Do all hearing aid-compatible handsets include labeling? Yes

Explain:

Do all hearing aid-compatible handsets that are capable of voice communication over any air interface or frequency band that does not have hearing aid compatibility technical standards under ANSI C63.19-2007 include the required language disclosing that the handset has not been rated for hearing aid compatibility with respect to such operations? Yes

Explain:

Do all hearing aid-compatible handsets that the manufacturer also tested and found not to meet hearing aid compatibility requirements under ANSI C63.19-2011 for one or more operations that are not covered under ANSI C63.19-2007, include language informing users by clear and effective means that the handset does not meet the relevant rating or ratings with respect to such operation(s)? Yes

Explain:

Do all handsets that are capable of use for Voice over LTE, and that were certified for inductive coupling capability under ANSI C63.19-2011 without being tested for inductive coupling capability over VoLTE, include language disclosing that they were not tested with respect to this operation? Yes

Explain:

Do all handsets that meet the criteria for an M3 rating by allowing the user to reduce the maximum power for GSM operation in the 1900 MHz band include the required disclosure? Yes

Explain:

Public Website

Does your company maintain a public website describing all hearing aid-compatible models, the ratings of those models, and an explanation of the rating system? Yes

Website address: <http://www.cellcom.com/hearing-aid-compatibility.html#.VKQDmHtdqE>

Explain:

Consumer Outreach

Describe consumer outreach efforts in the past 12 months: New-Cell maintains a public website displaying its entire selection of handsets and devices, including those that are HAC compliant. Sales staff is trained to assist existing and prospective customers in identifying HAC compatible handsets and devices. Existing and prospective customers can typically find whether a handset or device is HAC compliant by either checking the packaging containing the handset or device, or by consulting the packaging insert or operations manual. The device pages on the website and price points at the store can also be referenced. For more information on HAC, customers are directed to www.accesswireless.org/Disability-Categories/Hearing.aspx and other public websites dedicated to HAC education.

Methodology for Functionality Levels

New-Cell offers HAC compatible handsets and devices in all major price categories. Costs generally correlate with the number of features, but, if through experience, New-Cell finds that a certain handset contains features that work

well with hearing aids, such as volume control, it will be labeled accordingly at the "high end/feature rich" level for functionality. Sales staff is trained to assist all existing and prospective customers looking for a HAC-compliant device/handset. HAC-compatible handsets and devices vary in their inherent "levels of functionality", but typically at least one (1) HAC-compliant handset/device with features and services typical of its price category can be found that meets each customer's price range. Basic Phones allow users to perform basic functions such as make and receive calls and send and receive text messages. Some basic phones can also web browse, email, and may have a basic camera (1 to 2 mega pixels). Basic phones work mostly on 3G networks. Smartphones are powered by operating systems such as Android, iOS, Windows, etc. Smartphones allow users to perform a variety of functions: voice, messaging, web browsing, email, video, camera, application downloads, and more. They operate on 3G and 4G networks.

Report Remarks

You have reported the following handset model summary information.

Total number of handsets offered: 31

Air Interface	Fully Hearing Aid Compatible		Acoustic Coupling Compatible Only		Non-Compliant Handsets		Total by Air Interface
	Number	Percent	Number	Percent	Number	Percent	
CDMA	28	90%	2	6%	1	3%	31
